

3 Finger Lakes Trail, Letchworth Branch Mount Morris, NY

A spectacular trail on the east side of the Genesee River Gorge through Letchworth State Park with inspirational views and delightful tranquility. This trail is almost continuously without road crossings except at either end, has frequent access points to short side trails and provides opportunities for shorter or longer hikes between points. On the south end the trail connects with the main east/west Finger Lakes Trail, a 560 mile trek across upstate New York. There is no camping along this trail but a nice long rest at a scenic spot can certainly provide a quiet break.

Distance 1- 6 miles

Difficulty ★ ★

There are 12 access points to the 26-mile Letchworth Branch which goes from the Genesee Valley Greenway in downtown Mt. Morris all the way to Whiskey Bridge, south of Portageville, along the east side of Letchworth State Park.

The majority of signed access points are along River Rd, which runs between the gorge and NY 408, or the Mt. Morris Dam Visitor Center, or the park road just past parking area for Parade Grounds, or NY 436 just before the river bridge, heading south.
